

Why RecyclePlus?

RecyclePlus is a convenient service that allows you to declutter your home and feel good about doing your part for the environment.

Schedule

RecyclePlus is an every-other-week service. We will inform you what your official pickup day will be.

Bags

Place items in the corresponding bags. Durable fabric bags are provided for textiles, light bulbs, batteries, and plastic film. Plastic bags will be provided at start up for block foam and dairy tubs.

Extras

If you have items that do not fit in the provided bags, we will still accept them! Extras can be placed in bags next to the RecyclePlus box, for a fee of \$5 per extra bag.

Placement & Service

You will receive an app notification the Sunday night of your pickup week. Please select and let us know if you would like us to come by on your pickup day that week. If you can't let us know on Sunday night, please go into the app and select "Yes I would like a RecyclePlus pickup" at least the night before your pickup day that week.

On your service day, place your RecyclePlus box outside, near your door or a spot that's clearly visible from the road. (You can also just leave the box outside in the same spot all the time.) The bags will be emptied and returned to your box.

Recycle PLUS

by Sanipac

All materials must be empty, clean, and dry

We currently accept the following materials. As the RecyclePlus program grows and changes we may accept additional items. Visit sanipac.com/recycleplus for the most up-to-date information.

sanipac.com/recycleplus

Light Bulbs

- Used and spent light bulbs
- Incandescent, halogen, CFL, LED

NO: Broken light bulbs

Textiles

- Clothing, shoes, accessories
- Bedding, fabric scraps

NO: Wet or mildewed items; fabric with oil, gasoline, or other hazardous materials

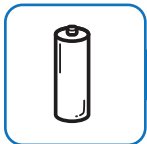

Dairy Tubs

- #5 plastic dairy tubs over 6 ounces (butter/margarine/cottage cheese/large yogurt tub etc).
- Lids are ok. Labels are ok. Do not need to do a deep clean, just make sure the food is out of the tub the best you can.

NO: Tubs smaller than 6 ounces. (No smaller yogurt containers with foil lids.)

Batteries

- Household batteries of all types and sizes
- Tape the ends of the batteries to prevent sparks

NO: Vehicle batteries

Plastic Film

- Bags, overwrap, air pillows, etc.
- Stretchy plastic

NO: Food-soiled or dirty film plastic

Block Foam

- Coolers and other protective packaging
- White block foam (PS, #6) only

NO: Food residue, dirt, or tape
